DETAILED ACTION

1. Applicant's election without traverse of group I (claim 74) in the reply filed on 10/6/2007 is acknowledged.

Applicant has added claims 94-138 and canceled claims 75-93 in the amendment filed on 10/6/2007.

Claims 74 and 94-138 are pending in this Office Action.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claim 74 is drawn to accepting a search term, which is classified in class 707, subclass 6.

II. Claims 94-138 are drawn to presenting materials for receiving a user selection of an expression, which is classified in class 707, subclass 102.

3. Inventions I, II, are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, accepting a search term in invention I is used in matching attribute-value pairs for the search term. Presenting materials for receiving a user selection of an expression in invention II is used in providing refinement options. See MPEP § 806.05(d). See MPEP § 806.05(d).

Art Unit: 2162

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. If the restriction requirement is mailed before November 1, 2007, the election must be filed within ONE MONTH or THIRTY DAYS, whichever is longer, from the mailing date of this Office action. The time period for reply is extendable under 37 CFR 1.136. Furthermore, if the elected invention is drawn to more than 5 independent claims or more than 25 total claims taking into account any amendment to claims, the Office will notify applicant and provide a time period in which applicant is required to file an ESD in compliance with 37 CFR 1.265 covering each of the elected claims or amend the application to contain no more than 5 independent elected claims and no more than 25 total elected claims.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
